Why choose Ungravity at Barcelona?

Ungravity Freestyle Company was born in 2004 with the objective of supporting Freestyle through educational projects (schools, clubs, colonies, camps...) and project management (competitions, events and special actions, ...)

Our philosophy is based in the illusion of helping these sports disciplines in their progression through all the existing fields (practitioners, riders, infrastructure, events, sponsorship, grants, ...) to ensure a stable and motivating future in a serious and professional aspect.

We are a company with a long experience in teaching sports: snowboarding, skiing, BMX, skateboard, scooter, Inline, MTB, Longboard, Kite, Surf and SUP. A company created and formed by graduates in Physical Activity and Sports Science and with higher studies in the field of sports management.

The organization of sports camps and colonies with different age groups both in Spain and abroad, are one of our specialities, in which we include the 8th edition of our SUMMER BMX CAMPS shown below.

The camps will be held entirely in BARCELONA and with the objective to offer a more Competitive proposal and motivating for all / the riders can enjoy their sports thru all quality bikeparks, Skateparks, Skateplazas, Spots and Indoorparks that the city and surrounding areas offers.
